

Oleksii Hukalov

Date and place of birth: 10.03.1987, Kharkiv, Ukraine

Education: Master of mathematics (diploma with honors), 2010, V. N. Karazin Kharkiv National University.

Place of work: B.Verkin Institute for Low Temperature Physics and Engineering of the National Academy of Sciences of Ukraine, Department of Mathematical Physics, Research Fellow. Associate professor of the Department of Fundamental Mathematics in the V. N. Karazin Kharkiv National University

e-mail: hukalov@ilt.kharkov.ua

Scientific degree: candidate of physical and mathematical sciences, 01.01.03-mathematical physics.

Scientific interests: kinetic theory of gases, exact and approximate solutions of the Bryan-Pidduck equation.

Scholarships and Grants: Scholarship of the Akhiezer Foundation (2012, 2017). The scholarship of the Yuri Saponov Charitable Foundation (2014), the grant of the National Academy of Sciences of Ukraine "Linear Evolution Equations in the Hilbert Space and the Boltzmann Equation" (2015-2016)

Scientific papers
