<https://orcid.org/0000-0003-0917-0260>

Address: B.Verkin Institute for Low Temperature Physics and Engineering of the National Academy of Sciences of Ukraine, Department of Thermal Properties and Structure of Solids and Nanosystems, 47 Nauky Avenue, Kharkiv 61103, Ukraine

Telephone: 341-09-82

E-mail: romantsova@ilt.kharkov.ua

Research Interests: Experimental investigation of thermal conductivity and heat capacity of molecular solids (crystals and various types of glasses) at low temperatures.

Scientific Degree: PhD (01.04.09 – low temperature physics, 2013)

Professional Experience:

B.I. Verkin Institute for Low Temperature Physics and Engineering, National Academy of Sciences of Ukraine, Department of Thermal Properties and Structure of Solids and Nanosystems

2005 – 2008: PhD student

2008 – 2014: Junior Researcher

2015 – present: Researcher

Education:

1999 – 2005 National Technical University «Kharkiv Polytechnic Institute», M.Sc. in Physical Materials Science.

Participation in Scientific Projects:

Joint program of the Polish Academy of Sciences and the National Academy of Sciences of Ukraine – Internship in research institutions under the NASU-PAS cooperation agreement (2016–2017).

Awards:

1. Scholarship for Young Scientists from NAS of Ukraine (2007–2009)
2. Scholarship of the President of Ukraine for Young Scientists (2016 – 2018)
3. Visegrad Fellowship for the project «Peculiarities in the low temperature heat capacity in low dimensional diamond-based system» (2024)

Research Grants:

1. Grant from European Fund for Displaced Scientists, (ALLEA) 2023.
2. Short-term scientific missions (STSMs) COST «Thermal performance of low-dimensional diamond inclusions for carbon-allotrope based composites», 2024.
3. Short-term scientific missions (STSMs) COST «Thermodynamic properties of materials containing hydrated fullerene inclusions at extra low temperatures», 2025.
