

Dmitry I. Stepanenko

1. Year of birth: 1965
2. Education: In 1988 graduated with honours from the Department of Physics and Technology of Kharkiv State University (since 1999 – V.N. Karazin Kharkiv National University). After graduating from the postgraduate studies in 1991, he defended PhD thesis.
3. Professional activity: In 1991-2003 he taught at the V.N. Karazin Kharkiv National University. Since 2003 he has been working at the B.Verkin Institute for Low Temperature Physics and Engineering of the National Academy of Sciences of Ukraine, Doctor of Sciences in theoretical physics (2014).
4. Main directions of research: electron processes in strongly anisotropic conducting systems, magnetic breakdown, resonance effects in high-frequency conductivity, Fermi-liquid interaction, electromagnetic and spin-type collective modes.

The author and co-author of more than 40 articles in refereed journals,
